**PRELIMINARY COPY SUBJECT TO COMPLETION  
DATED MARCH 7, 2018**

**STARBOARD VALUE AND OPPORTUNITY MASTER FUND LTD**

March [ ], 2018

Dear Fellow Mellanox Shareholders:

Starboard Value and Opportunity Master Fund Ltd and the other participants in this solicitation (collectively, “Starboard” or “we”) beneficially own a total of 5,472,086 shares, or approximately 10.6%, of the outstanding ordinary shares (the “Shares”), of Mellanox Technologies, Ltd., a public company formed under the laws of the State of Israel (“Mellanox” or the “Company”), making us the Company’s largest shareholder. We have nominated a slate of [nine] highly-qualified director candidates for election to the Company’s Board of Directors (the “Board”) at Mellanox’s upcoming 2018 Annual General Meeting of Shareholders (the “Annual Meeting”).

While we believe Mellanox is a great company with a market leading technology portfolio and product set, it remains deeply undervalued with opportunities to unlock significant value within the control of management and the Board. We believe that substantial change is required on the Board in order to provide renewed accountability to shareholders and the objectivity and perspective to make difficult decisions without the burden of attachment to past practices. Only with these changes do we believe Mellanox can get back on track and become a leader in the industry across technology innovation, operating performance, and financial performance.

Starboard has a long and successful history of investing in underperforming companies in the semiconductor industry in the U.S. and Israel and helping these companies to drive significant operational, financial, and strategic improvements. Over the past decade, we have been involved in a number of highly successful operational turnarounds, as well as several strategic transactions.

We have serious concerns with the long-term underperformance at Mellanox prior to our involvement. This period of underperformance has been characterized by overspending in research and development and selling, general, and administrative expenses, coupled with stagnant revenue. Together, these issues caused a significant deterioration in shareholder value prior to our involvement. In the five years prior to Starboard’s initial Schedule 13D filing with the Securities and Exchange Commission (the “SEC”) on November 20, 2017 disclosing our substantial ownership position, Mellanox underperformed its peer group and the Philadelphia Stock Exchange Semiconductor (SOX) Index by 470% and 300%, respectively<sup>[1]</sup>. Since we filed our Schedule 13D, Mellanox has outperformed its peers and the SOX index by approximately 30%<sup>1</sup>, which we believe is largely a reflection of investor enthusiasm for potential changes as a result of our involvement and reactionary commitments by management to improve profitability and execution.

Our goal is to create value for the benefit of all shareholders. We believe a critical step towards achieving this objective is to reconstitute the Board with director candidates who have appropriate and relevant skill sets, as well as the shared objective of enhancing value for the benefit of all Mellanox shareholders and restoring accountability at the Company. The individuals we have nominated are highly-qualified, extraordinarily capable, and ready to serve shareholders to help make Mellanox a stronger, more profitable, and, ultimately, more valuable company.

<sup>[1]</sup>Source: Capital IQ. Prices adjusted for dividends. Direct Peer Group includes IPHI, CAVM, MSCC, AVGO, IDTI, MRVL, MCHP, MTSI, SWKS.

Our selection of these nine carefully vetted nominees is the culmination of an intensive process that included the retention of an executive search firm and the evaluation of more than 100 qualified potential candidates. When evaluating potential director candidates, we looked to craft a slate of directors who have a diverse set of skills and backgrounds that, in aggregate, provide the expertise needed at Mellanox. As you can see from the detailed biographies included below, this group of extremely impressive director candidates have backgrounds spanning operations, finance, engineering, marketing, mergers and acquisitions, restructuring, strategic transformation, and public company governance. They have substantial and highly successful experience in the semiconductor, technology, networking, and high-performance computing industries. Collectively, they have decades of experience as CEOs, CFOs, COOs, senior executives, and directors of well-performing technology companies in the United States, Israel, and around the world.

- Mr. Waters' technological expertise and extensive senior management experience in the semiconductor industry, including as the CEO, President and a director of Integrated Device Technology, makes him well-qualified to serve on the Board of Mellanox.

We are mindful that replacing a significant majority of an incumbent board of directors represents an extraordinary step, and we take that responsibility very seriously. In the recent past, we have had tremendous success in similar situations that required a change in a majority of the board. These situations include Tessera Technologies ("Tessera"), Darden Restaurants ("Darden"), and Marvell Technology Group ("Marvell").

At Tessera, Starboard replaced a majority of the Board in May 2013 through a settlement agreement. Following this change, under the leadership of the new Board and management team, Tessera underwent an operational transformation that resulted in significantly lower operating expenses and a return to revenue growth. Combined with a significant return of capital to shareholders, these changes led to tremendous value creation for Tessera shareholders.

At Darden, we replaced the entire board of directors with twelve new board members. This new Board, along with the new management team, subsequently implemented and oversaw a highly successful turnaround that repositioned Darden and unlocked tremendous shareholder value through a combination of accelerated organic revenue growth, improved margins and cash flow generation, and the separation of non-core assets.

In the case of Marvell, Starboard was instrumental in creating a majority change in the composition of the board of directors, following which the new Board hired a new management team and oversaw an incredibly successful turnaround that focused on improving organic revenue growth and operating profit while reducing operating expenditures. Since the time Marvell reached a settlement with Starboard in April 2016, revenue growth, gross margins, and operating margins have all improved substantially, which has led to significant shareholder value creation.

In each of these situations, no more than two direct representatives of Starboard were added to the board, and the vast majority of the Board was comprised of truly independent directors who shared a common goal of driving significant value creation at each of these companies.

As with each of Tessera, Darden, and Marvell, we currently view Mellanox as having the potential to achieve tremendous improvement in financial, operational, and share-price performance under the guidance of a newly constituted and highly-esteemed Board committed to serving the best interests of all shareholders.

We look forward to sharing our detailed views on, and comprehensive plans for, Mellanox and look forward to engaging with you as we approach the Annual Meeting.

---

We should note that the Company has recently appointed two new Board members following the delivery of our nominations and the closing of the period for shareholder nominations. We question the decision by the current Board to increase its membership subsequent to a proxy contest having been initiated and the deadline for shareholder nominations having expired. We had previously indicated that in the event all nine of our nominees are elected to serve on the Board, we would consider adding back two of the existing incumbent directors, subject to their willingness to serve. As the Company has now indicated its intention to nominate eleven directors for election at the Annual Meeting, and we have nominated only nine director candidates, it appears likely that at least two incumbent directors will be elected to the Board at the 2018 Annual Meeting. We reserve the right to vote our Starboard shares as we see fit in order to seek to elect the two Company director candidates who we believe are the most qualified to serve as directors of the Company.

The upcoming election is a critical opportunity to ensure that we, as shareholders, have the best possible Board to drive the level of change necessary to improve performance and value at Mellanox.

We urge you to carefully consider the information contained in this Proxy Statement and then support our efforts by signing, dating and returning the enclosed **BLUE** proxy card today. The attached Proxy Statement and the enclosed **BLUE** proxy card are first being furnished to the shareholders on or about March [ ], 2018.

This Proxy Statement is soliciting proxies to elect only our Nominees. Accordingly, the enclosed **BLUE** proxy card may only be voted for our Nominees and does not confer voting power with respect to any of the Company's director nominees. See "Voting and Proxy Procedures" on page [ ] for additional information. You can only vote for the Company's director nominees by signing and returning a proxy card provided by the Company. Also, while it is our current intention to vote all of the Starboard Group Shares in favor of the election of the Nominees, we reserve the right to vote some or all of the Starboard Group Shares for some or all of the Company's director nominees, up to and including the date of the Annual Meeting, as we see fit, in order to seek to achieve a Board composition that we believe is in the best interest of all shareholders. ### Background to the Solicitation

The following is a chronology of material events leading up to this proxy solicitation:

- On November 20, 2017, Starboard filed a Schedule 13D with the SEC (the “Schedule 13D”) disclosing a 9.8% beneficial ownership position in Mellanox. In the Schedule 13D, Starboard stated, among other things, that it invested in the Company based on Starboard’s belief that Mellanox is deeply undervalued and represents an attractive investment opportunity, and that opportunities exist within the control of management and the Board to take actions that would create significant value for the benefit of all shareholders. Starboard further stated that it had conducted extensive research on Mellanox as part of its coverage of the semiconductor industry and noted the growing disparity between the Company’s margins, growth, and share price performance compared to its peer group. Starboard also expressed its belief in the Schedule 13D that tremendous value can be created at Mellanox through operational improvements or other strategic alternatives.
- Also, on November 20, 2017, following the close of business, Peter Feld of Starboard sent an e-mail to Eyal Waldman, the Company’s CEO. In his message, Mr. Feld introduced Starboard and included a private letter with accompanying slides for distribution to the Board. In addition, Starboard requested a time to speak with Mr. Waldman.
- On November 28, 2017, representatives of Starboard had a telephone discussion with certain members of management, including Mr. Shulman, the Company’s CFO at the time, and Mr. Waldman, to gain a better understanding of Mellanox and management’s strategy.
- On December 6, 2017, representatives of Starboard met with Mr. Waldman and Mr. Irwin Federman, Chairman of the Board, at a restaurant in Menlo Park, California to discuss Starboard’s views on the Company and opportunities to improve operating and financial performance.
- On December 7, 2017, at the Barclays Global Technology, Media and Telecommunications Conference in San Francisco, California, Mr. Waldman announced the Company’s new financial targets for 2018, the first time that the Company had ever provided annual guidance.
- On December 12, 2017, representatives of Starboard met with Messrs. Waldman and Shulman at Starboard’s offices in New York to further discuss the business, Starboard’s views, and the Company’s 2018 outlook.
- On December 15, 2017, representatives of Starboard had a telephone discussion with Mr. Federman and Ms. Amal Johnson, Chair of the Compensation Committee, to discuss Starboard’s views on the Board and opportunities to create value at Mellanox, and Mr. Federman and Ms. Johnson provided Starboard with feedback regarding Starboard’s private letter to the Company and their previous meetings and discussions. Mr. Federman and Ms. Johnson further stated that they had received positive feedback on Starboard through mutual contacts in the semiconductor industry, and were open to working with Starboard, provided that Starboard agreed to support the Company’s current strategy and executive leadership.
- On December 18, 2017, representatives of Starboard had a telephone discussion with Mr. Waldman to discuss the engagement with Starboard to date, the opportunity for margin expansion, and the potential to meet at the Company’s headquarters in Israel.

- On January 8, 2018, Starboard issued a press release announcing that it had delivered an open letter and accompanying supplemental slides to Mr. Waldman and the Board, which were made public. The letter highlighted the Company's history of poor financial, operational, and share price performance and Starboard's views on the significant opportunities for value creation at Mellanox in 2018 and beyond.
- On January 9, 2018, Mellanox announced that it would shut down its 1550nm Silicon Photonics development project. This business was acquired as part of the \$82 million acquisition of Kotura, Inc. in 2013. It generated no revenue, was not expected to generate revenue in 2018, and was losing \$26-28 million in annual non-GAAP operating expenses, according to Mellanox's press release.
- On January 15, 2018, representatives of Starboard met with Mr. Waldman and several members of Mellanox's management team at the Company's headquarters in Yokneam, Israel. During the meetings, the parties discussed the opportunities for improved operational execution at Mellanox, listened to the perspective of members of the executive team, and toured the facilities.
- Later on January 15, 2018, representatives of Starboard attended a dinner in Tel Aviv, Israel, which included Mr. Waldman, Mr. Shai Cohen, director, co-founder, and former Chief Operating Officer of Mellanox, and Messrs. David Perlmutter and Dov Bharav, the two Israel-based independent directors of Mellanox, as well as certain members of the Company's management, including Mr. Michael Kagan, co-founder and Chief Technology Officer. At the dinner, Starboard and the Company representatives discussed the Board's perspective on Mellanox, its outlook, and the engagement with Starboard to date.
- On January 17, 2018, Mr. Feld left voicemail messages for and sent emails to Mr. Waldman and Mr. Federman to inform them that Starboard intended to nominate directors for election at the Annual Meeting.
- Later on January 17, 2018, Starboard delivered a letter to Mellanox's Corporate Secretary (the "Nomination Letter") nominating Mary B. Cranston, Peter A. Feld, Jonathan Khazam, Thomas Lacey, Efrat Makov, Jon A. Olson, Jeffrey C. Smith, Jorge L. Titingier, and Gregory Waters for election to the Board at the Annual Meeting. In the Nomination Letter, Starboard stated its belief that the terms of all nine (9) directors then serving on the Board expire at the Annual Meeting. Depending on certain factors, including the total number of directors up for election at the Annual Meeting and the Company's financial and operational performance, Starboard reserved the right to either withdraw certain or all of its Nominees or to nominate additional nominees for election to the Board at the Annual Meeting. Starboard also announced that, if all nine (9) of its Nominees are elected to serve on the Board, it would consider adding back two of the existing incumbent directors, should they be willing to serve, to maintain continuity and local expertise on the Board.
- Also on January 17, 2018, Starboard delivered an open letter to Mellanox shareholders stating its belief that significant change to the Board is required to address years of substantial underperformance at the Company and to drive significant value creation for the benefit of all shareholders. In the letter, Starboard expressed its disappointment that Mellanox's targets for operating performance were set far below acceptable expectations, and that the Company had not shown an ability to meet even its own underwhelming targets. Starboard further stated that the Company's underperformance has spanned several years, throughout which the Board has not taken sufficient steps to hold management accountable. Starboard also issued a press release on January 17, 2018 to announce its delivery of the Nomination Letter to the Company for the election of a slate of nine (9) highly qualified director candidates at the Annual Meeting.

- On January 19, 2018, representatives of Starboard had a telephone discussion with certain members of management, including Mr. Shulman, to discuss the Company's earnings report. The call was arranged at Mr. Waldman's suggestion during Starboard's meetings with Mr. Waldman in Israel, and he was scheduled to join the call, but did not do so.
- On February 5, 2018, Starboard issued a press release announcing that it had delivered a letter to Mr. Federman, with copies to the Board, Ms. Glenda Dorchak, Chair of the Nominating and Corporate Governance Committee and Ms. Johnson. In the letter, Starboard highlighted a troubling pattern of insider selling at Mellanox in the last ten years since it became a public company, including 373 separate insider sale transactions, compared to just a single open market insider purchase, back in 2013. Starboard further questioned the Board and management's confidence in Mellanox in light of intensified insider selling following the Company's recently announced annual guidance.
- On February 20, 2018, the Board appointed two new directors, Steve Sanghi, Chairman and CEO of Microchip Technology Inc. ("Microchip"), and Umesh Padval, Partner at Thomvest Ventures and a Director of Integrated Device Technology, Inc., to the Board, thereby increasing the Board's membership from nine (9) to eleven (11) directors.
- On February 21, 2018, Mellanox announced Mr. Shulman's plans to step down as CFO of the Company on May 4, 2018, after announcing fiscal first quarter 2018 earnings.
- Also, on February 21, 2018, the Company issued a press release announcing updated guidance for the first fiscal quarter of 2018 ending March 31, 2018.
- On March 1, 2018, Microchip announced the proposed acquisition of Microsemi Corporation ("Microsemi"), a competitor of Mellanox in certain areas of the Ethernet market. As mentioned above, Mr. Sanghi, who was appointed to the Board of Mellanox on February 20, 2018, is the Chairman and CEO of Microchip.

**REASONS FOR THE SOLICITATION**

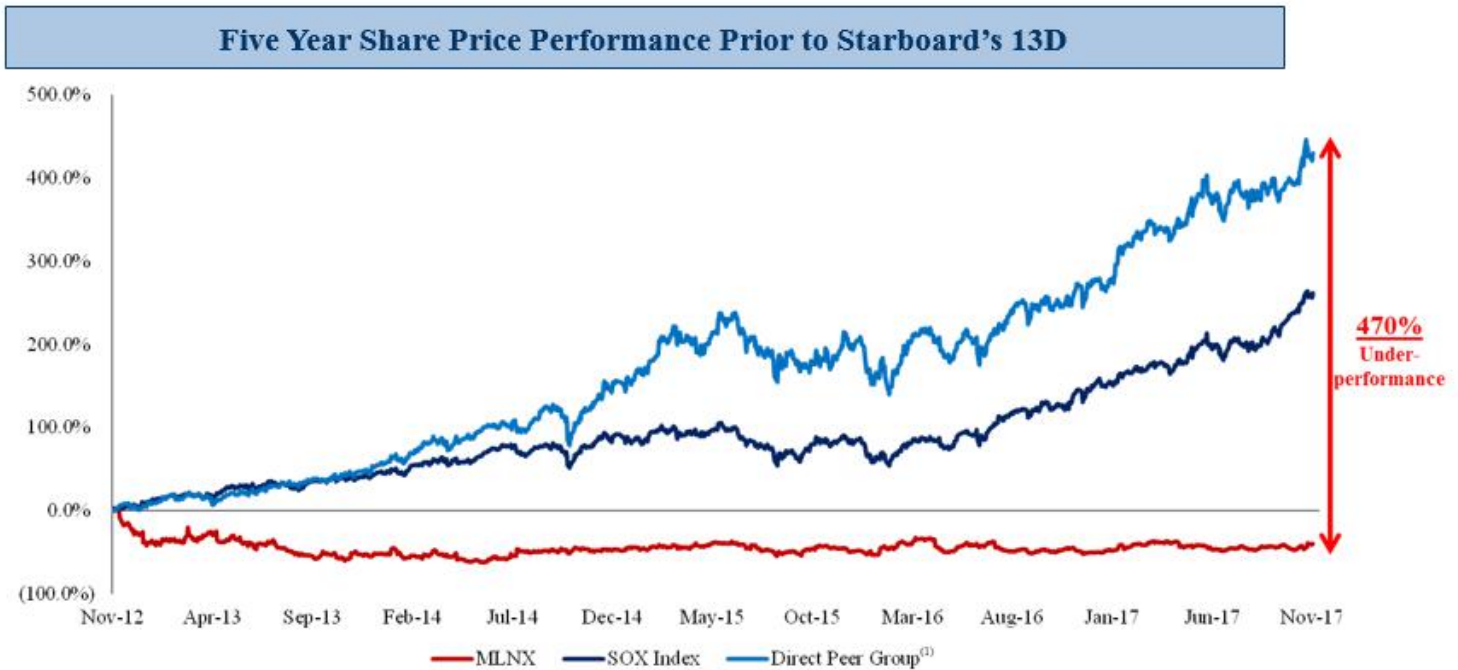

We believe that change is needed on the Mellanox Board. The current Board has overseen an extended period of poor share price performance in which the Company has lagged its peers in operating performance. Despite overspending on R&D and SG&A, Mellanox has struggled to achieve revenue growth even in line with the peer median. These factors have led to significant share price underperformance compared to peers and the semiconductor industry. We further note that the extreme magnitude and frequency of insider selling at Mellanox, which has recently intensified, runs counter to the optimistic revenue growth targets set by the Company and calls into serious question whether the interests of management and the Board are properly aligned with those of shareholders.

We are seeking your support to elect a slate of [nine (9)] highly qualified director nominees in order to restore credibility and accountability at Mellanox and help unlock the full potential of the Company’s enviable technology leadership position.

Our Nominees were carefully selected and possess skill sets in areas directly relevant to Mellanox’s business and its current challenges and opportunities. We believe that our Nominees, if elected, are fully capable of bringing about the much-needed change that is required at Mellanox.

***We Are Concerned with the Company’s Poor Share Price and Operational Performance***

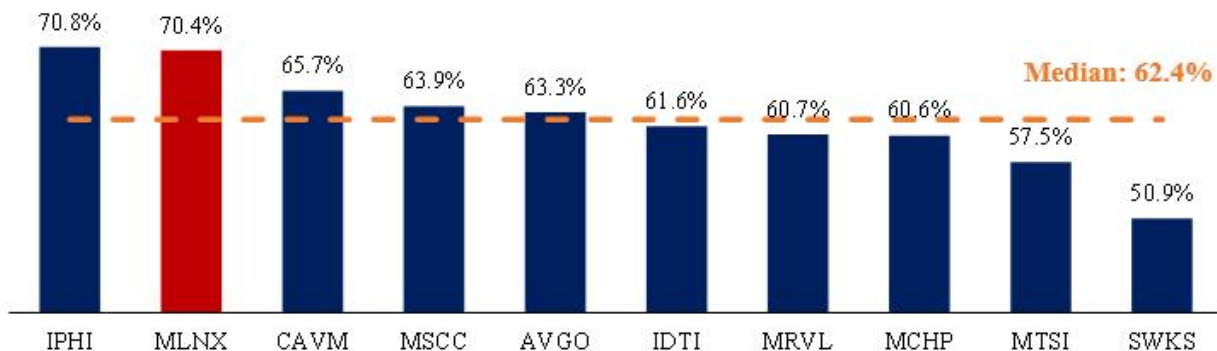

Mellanox shares have significantly underperformed the market, its direct peer group, and the broader semiconductor industry in the five years prior to Starboard’s Schedule 13D filed on November 20, 2017.

Source: Capital IQ. Market data as of November 17, 2017. Prices adjusted for dividends.  
 (1) Direct Peer Group includes IPHI, CAVM, MSCC, AVGO, IDTI, MRVL, MCHP, MTSI, SWKS.

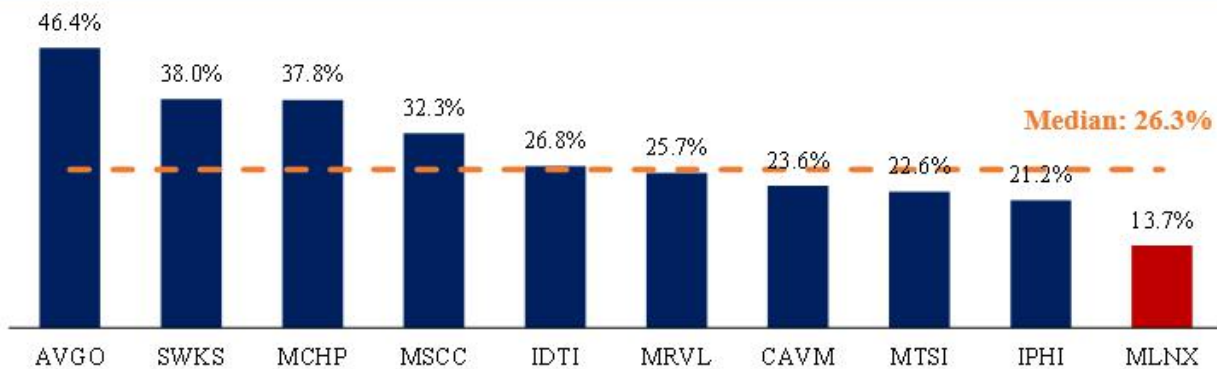

Mellanox’s operating margin trails peers significantly despite one of the best gross margin profiles in the industry. This underperformance is troubling and puzzling, given both the strong performance of Mellanox’s peers and the tailwinds provided by the Company’s favorable exposure to many of the most attractive end markets in the industry: high-performance computing, cloud computing, hyperscale data centers, and artificial intelligence.

***We Are Concerned That the Company Has Overspent on R&D and SG&A While Failing to Achieve Acceptable Revenue Growth***

The Company has, in our view, engaged in excessive spending on both R&D and SG&A. Over the last twelve months prior to our involvement, Mellanox’s R&D expenditures as a percentage of revenue were 42%, compared to the peer median of 22%. On SG&A, Mellanox spent 24% of revenue versus the peer median of 17%<sup>[2]</sup>. It is critical to appreciate that Mellanox is not just slightly worse than peers on these key metrics, it is completely out of line with the peer group.

While Mellanox’s level of R&D spending would be hard to justify under any circumstances, shareholders would expect that level of expense over a multi-year period to at least generate above average revenue growth. However, despite spending among the highest percentage of revenue on R&D in the peer group for a number of years, Mellanox’s organic growth rate for 2017 was the absolute worst of its direct peers and was in fact negative.

<sup>[2]</sup>LTM R&D Expense & SG&A Expense as a percent of sales per Capital IQ as of November 17, 2017 and represent GAAP numbers excluding one-time events such as asset impairment.

Despite these glaring and obvious issues, it seems that until our involvement in Mellanox was publicly disclosed, there was no intention of changing strategy or shifting focus towards a better balance of investing for growth while delivering reasonable profitability. It now appears that due to external pressures, management and the Board recognize there is an issue and see that Mellanox's historical pattern of excessive spending without commensurate growth cannot continue. While the new targets for 2018 that were disclosed in December are a small step in the right direction, we remain concerned that these commitments are merely reactionary and, even if achieved, do not come close to addressing the magnitude of the problem.

Moreover, given Mellanox's extended history of underperformance and missed expectations, we believe that the Company lacks sufficient credibility to ensure shareholders that it will hit even these modest targets. Mellanox has unfortunately stood out among its peers by missing consensus expectations on revenue and/or EPS in each of the four quarters prior to our Schedule 13D filing while also repeatedly lowering its revenue guidance and pushing out expectations for new product launches.

Given this troubling pattern of missing expectations, during a time when almost every other semiconductor company repeatedly beat expectations and raised guidance, combined with the prolonged share price and operational underperformance discussed above, how can shareholders have confidence that this time is different? How can shareholders have confidence that Mellanox will suddenly go from repeatedly missing expectations to beating them?

***We Are Concerned That the Recently Announced 2018 Targets Do Not Go far Enough and Rely Too Heavily on Uncertain Revenue Growth***

We are concerned that the targets outlined for 2018 are solely reliant on revenue growth to drive operating margin expansion. As shown in the table below, when analyzing the new margin targets in the context of the growth expectations Mellanox provided, it appears that margin targets for 2018 do not actually imply any reduction in operating expenses. For example, if Mellanox grows 2018 revenue to the midpoint of the Company's guidance range, and achieves the targeted 68-69% gross margin, the Company should achieve an almost 19% operating margin simply by keeping expenses flat. Thus, it appears that the 2018 operating margin target of 18-19% for 2018 actually implies that operating expenses will likely continue to increase, even despite the \$26-28 million in expenses that will naturally go away with the shutdown of the 1550nm Silicon Photonics project. Based on the Company's historical failures to achieve stated revenue growth objectives, we believe there is material risk to this plan given its heavy reliance on revenue growth as the primary lever to drive operating margin improvements.

#### ***We Are Concerned with the Troubling Pattern of Insider Selling by Management and the Board and Question Whether their Interests Are Properly Aligned with Those of Shareholders***

Since the Company's IPO in 2007, there have been 377 sales<sup>[3]</sup> of shares by the current management team and Board, equating to approximately \$130 million in proceeds. Over that period, there has been just a single open market purchase. In fact, no director or member of senior management has purchased a single share in the open market since 2013. The selling has not been limited to one or two individuals, but rather is a widespread issue among company executives and directors.

<sup>[3]</sup>This figure is based on BamSEC categorizations, which generally group multiple transactions reported on a single Form 4 as a single event, even when said Form 4 includes multiple transactions. If each individual transaction were counted separately, this number would be significantly higher than 377.

**Open Market Transactions since Mellanox's IPO**

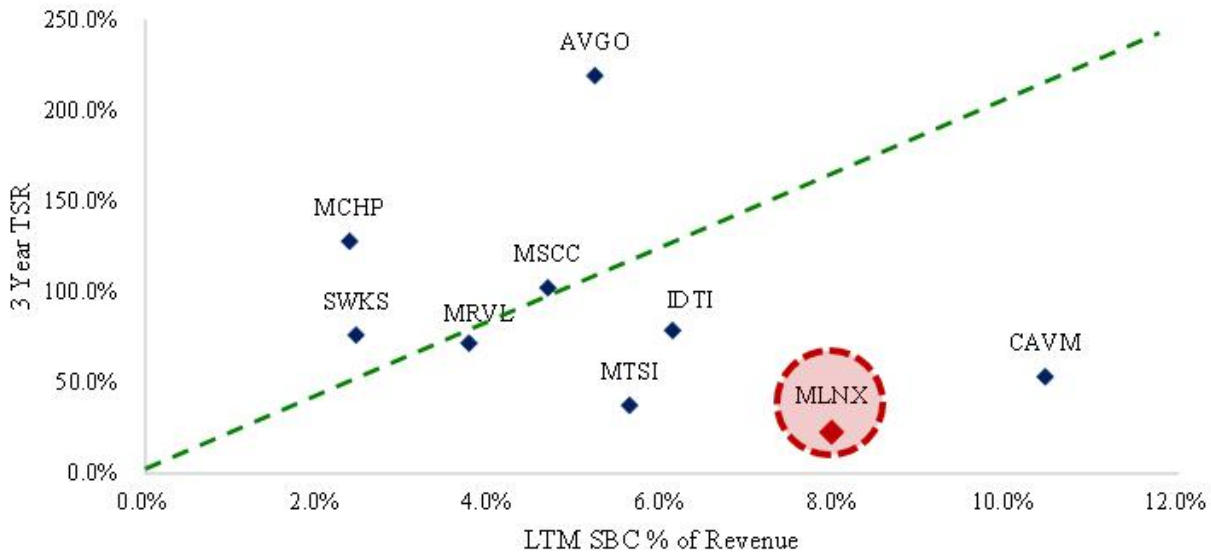

Source: BamSEC, Company filings.

Note: Of the 377 open market sales, 251 were via open market transactions and 126 were via 10b5-1 plans. Does not include purchases via the Employee Share Purchase Plan, whereby executive officers can purchase shares at 85% of the Fair Market Value of the Shares on the Enrollment Date or the Exercise Date, whichever is lower. Based on the Company's Form 4 filings, these purchases totaled approximately \$600,000 of Mellanox stock, purchased at an average discount of approximately 27% to the closing price on the day of purchase.

Perhaps most concerning is that this pattern of insider selling has not only continued, but even intensified following management's release of full year guidance in December 2017, which marked the first time Mellanox has ever provided annual guidance. In just the eight weeks between that announcement and our letter on February 5, 2018 highlighting the troubling pattern of insider selling, members of management and the Board sold more than \$4.3 million worth of shares. Over the past few months, management has strongly and repeatedly expressed confidence about the Company's future outlook and published new financial targets for 2018 and 2019 that indicate that management expects a significant inflection point in both growth and profitability in the near future. But these statements are undermined, in our view, by the repeated pattern of stock sales by the Board and key members of management. In fact, even after our letter highlighted this concern, management and the board have continued to sell shares, with 4 additional insider sales disclosed after the release of our letter and still not a single open market purchase.

We also believe shareholders have long had concerns with the level of stock-based compensation at the Company, especially given Mellanox's long-term underperformance in terms of both operating results and share price. High stock-based compensation is not always a problem. For high-performing, well-governed companies, high stock-based compensation is often the result of, and reward for, excellent performance and the achievement of long-term target metrics. Unfortunately, this has not been the case at Mellanox. In the three years prior to our Schedule 13D filed on November 20, 2017, Mellanox had by far the lowest TSR in its peer group. Despite this underperformance, it had among the highest levels of stock-based compensation, as illustrated below.

**LTM Stock-Based Compensation vs 3-Year TSR Prior to Starboard's 13D**

Source: Capital IQ, Company filings. 3 Year TSR based on change in stock price, adjusted for dividends.

It would be one thing if, at the very least, management and the Board held on to the vast majority of their equity grants in order to increase their alignment with shareholders. But the Board and management team's longstanding pattern of selling shares soon after they vest suggests management and the Board are more interested in cash payouts than the Company's stock, which brings into question the wisdom and effectiveness of Mellanox's industry-high stock-based compensation program. In fact, as shown below, share ownership among executives and the Board has steadily and rapidly declined since the Company's IPO.

**Insider Share Ownership over Time**

Source: Bloomberg, Company filings. Ownership reflects total Executive Officer and Director Ownership as of Company's annual proxy statement ("Proxy").

Note: Immediately following Mellanox's IPO, total insider ownership was 36.7% per the Company's 2007 Proxy. Primarily through insider sales in the subsequent year, insider ownership declined to 17.1% at the time of filing of the 2008 Proxy. The Company's 2011 Proxy reports 32.7% insider ownership, which appears to be an error based on including shares held by FMR LLC and Oracle Corporation, which are not Company insiders and have been excluded accordingly.

***Shareholders Deserve a Board That Holds Management Accountable for Years of Poor Operating Performance, Misalignment with Shareholders and Ineffective Execution of Strategy***

As such, we believe that substantial change is required and warranted on the Board in order to provide a new plan for the future, renewed accountability to shareholders, and, importantly, the objectivity and perspective to make difficult decisions without the burden of attachment to past practices. Only with these changes do we believe Mellanox can get back on track and become a leader in the industry across technology innovation, operating performance, and financial performance. This will be crucial to driving long-term shareholder value.

**WE BELIEVE THAT ONLY WITH A RECONSTITUTED BOARD CAN MELLANOX RESTORE ITS CREDIBILITY WITH SHAREHOLDERS**

Our goal is to create value for the benefit of all shareholders. We believe that Mellanox has the potential to become a best-in-class company. However, despite years of underperformance, Mellanox is now asking shareholders to trust that the Company will execute on its plan to achieve its targets for 2018 – targets that, even if achieved, would still position Mellanox at the bottom of the peer group in terms of profitability. We believe our continued involvement is critical to ensure that Mellanox has the appropriate oversight to help guide the Company through a transformation that would put it on the right path towards becoming a best-in-class semiconductor company, rather than a company merely hoping to achieve bottom-quartile performance.

We are confident that you will find the team of professionals we are nominating to be incredibly well-qualified to serve as directors of Mellanox. Over the coming weeks and months, we intend to share our detailed views on, and plans for, Mellanox and look forward to engaging with you as we approach the 2018 Annual Meeting.

On January 17, 2018, Starboard V&O Fund, Starboard S LLC, Starboard C LP, Starboard R LP, Starboard R GP, Starboard Papa LLC, Starboard Leaders Fund, Starboard A LP, Starboard A GP, Starboard Value LP, Starboard Value GP, Principal Co, Principal GP, Mmes. Cranston and Makov and Messrs. Khazam, Lacey, Olson, Titingier, Smith, Mitchell, Feld and Waters (collectively the “Group”) entered into a Joint Filing and Solicitation Agreement in which, among other things, (a) the Group agreed to the joint filing on behalf of each of them of statements on Schedule 13D with respect to the securities of the Company, (b) the Group agreed to solicit proxies or written consents for the election of each of Misses Cranston and Makov and Messrs. Starboard believes each Nominee presently is, and if elected as a director of the Company would be, an “independent director” within the meaning of (i) applicable NASDAQ listing standards applicable to board composition and (ii) Section 301 of the Sarbanes-Oxley Act of 2002. No Nominee is employed by the Company and accordingly, no nominee is a member of any of the Company’s committees. In considering the independence of the Nominees, Starboard took into consideration certain relationships that certain Nominees have had or currently have with certain directors and/or officers of the Company in connection with their prior and/or current roles at certain companies and/or organizations and determined that none of these relationships would impair the judgment of such Nominees, and, accordingly, that each of the Nominees satisfies the applicable standards of independence applicable to directors of the Company. In addition, with respect to Mr. Feld, Starboard acknowledges the potential conflict of serving concurrently on the Boards of the Company and Marvell Technology Group Ltd., and, therefore, if Starboard proceeds to seek the election of a direct Starboard representative to the Board, Mr. Feld has agreed to step down from the Board of Marvell Technology Group Ltd.

Other than as stated herein, and except for compensation received by each of Messrs. Smith and Feld as an employee of Starboard, there are no arrangements or understandings between members of Starboard and any of the Nominees or any other person or persons pursuant to which the nomination of the Nominees described herein is to be made, other than the consent by each of the Nominees to be named in this Proxy Statement and to serve as a director of the Company if elected as such at the Annual Meeting. None of the Nominees is a party adverse to the Company or any of its subsidiaries or has a material interest adverse to the Company or any of its subsidiaries in any material pending legal proceedings.

If Starboard is successful in electing at least six (6) of the Nominees at the Annual Meeting, then a change in control of the Board may be deemed to have occurred. Based on a review of the Company’s material contracts and agreements, such a change in control may trigger certain change in control provisions or payments under certain of the Company’s plans and agreements, including its Executive Severance Benefits Agreements with US and Israel executives, the Company’s Second Amended and Restated Global Share Incentive Plan (2006) and the Credit Agreement, dated as of February 22, 2016, among the Company and Mellanox Technologies, Inc., as borrowers, JPMorgan Chase Bank, N.A., as administrative agent, and the other lenders party thereto. However, even if it should be determined that electing our Nominees would result in a change of control, we do not believe any potential effects from such a change of control would outweigh the overwhelming benefits from an improved Board. Of further note, most of the change of control provisions are double-trigger provisions, including the Executive Severance Benefits Agreements, meaning that a change of control in and of itself does not trigger any payments, but rather there would also need to be a termination of the affected employees before any benefits are triggered.

We do not expect that any of the Nominees will be unable to stand for election, but, in the event any Nominee is unable to serve or for good cause will not serve, the Shares represented by the enclosed **BLUE** proxy card will be voted for substitute nominee(s), to the extent this is not prohibited under the Amended and Restated Articles of Association and applicable law. In addition, we reserve the right to nominate substitute person(s) if the Company makes or announces any changes to the Amended and Restated Articles of Association or takes or announces any other action that has, or if consummated would have, the effect of disqualifying any Nominee, to the extent this is not prohibited under the Amended and Restated Articles of Association or applicable law. In any such case, Shares represented by the enclosed **BLUE** proxy card will be voted for such substitute nominee(s). We reserve the right to nominate additional person(s), to the extent this is not prohibited under the Amended and Restated Articles of Association or applicable law, if the Company increases the size of the Board above its existing size or increases the number of directors whose terms expire at the Annual Meeting. Additional nominations made pursuant to the preceding sentence are without prejudice to the position of Starboard that any attempt to increase the size of the current Board or to classify the Board constitutes an unlawful manipulation of the Company’s corporate machinery.

Since the Company has recently increased its membership and will be seeking the election of eleven (11) directors at the Annual Meeting, we reserve the right to vote the Starboard Group Shares for two (2) of the Company's directors who we believe are the most qualified to serve as directors. Also, while it is our current intention to vote all of the Starboard Group Shares in favor of the election of the Nominees, we reserve the right to vote some or all of the Starboard Group Shares for some or all of the Company's director nominees, up to and including the date of the Annual Meeting, as we see fit, in order to seek to achieve a Board composition that we believe is in the best interest of all shareholders. Shareholders may not know which of the Company's director nominees that Starboard votes some or all of the Starboard Group Shares for, if Starboard does in fact vote for some or all of the Company's director nominees. We would only intend to vote some or all of the Starboard Group Shares for some or all the Company's director nominees in the event it were to become apparent to us, based on the projected voting results at such time, that by voting the Starboard Group Shares we could help elect the Company nominees who we believe are the most qualified to serve as directors and thus help achieve a Board composition that we believe is in the best interest of all shareholders. If we decide to vote some or all of the Starboard Group Shares for some or all of the Company's director nominees prior to the date of the Annual Meeting, we will file a statement on Schedule 14A on the same day such determination is made in order to notify shareholders accordingly. Shareholders should understand, however, that all Shares represented by the enclosed **BLUE** proxy card will be voted at the Annual Meeting as marked and, in the absence of specific instructions, will be voted in accordance with Starboard's recommendations specified herein and in accordance with the discretion of the persons named on the **BLUE** proxy card with respect to any other matters that may be voted upon at the Annual Meeting.

**WE URGE YOU TO VOTE FOR THE ELECTION OF THE NOMINEES ON THE ENCLOSED BLUE PROXY CARD.**

**PROPOSAL NO. 2****ADVISORY VOTE ON THE COMPANY'S EXECUTIVE COMPENSATION**

[As discussed in further detail in the Company's proxy statement, the Company is asking shareholders to indicate their support for the compensation of the Company's named executive officers. "RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

[According to the Company's proxy statement, the shareholder vote on the Say-on-Pay Proposal is an advisory vote only, and is not binding on the Company, the Board, or the Compensation Committee.]

**[WE MAKE NO RECOMMENDATION] WITH RESPECT TO THIS PROPOSAL AND INTEND TO VOTE OUR SHARES [ "AGAINST"] THIS PROPOSAL.]**

The Company is submitting the appointment of Kost Forer Gabbay & Kasierer, the Israel-based member of Ernst & Young Global for ratification of the shareholders at the Annual Meeting.]

**WE MAKE NO RECOMMENDATION WITH RESPECT TO THE RATIFICATION OF THE APPOINTMENT OF KOST FORER GABBAY & KASIERER AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR ITS FISCAL YEAR ENDING DECEMBER 31, 2018 AND INTEND TO VOTE OUR SHARES "FOR" THIS PROPOSAL.**

## VOTING AND PROXY PROCEDURES

Shareholders are entitled to one vote for each Share held of record on the Record Date with respect to each matter to be acted on at the Annual Meeting. Only shareholders of record on the Record Date will be entitled to notice of and to vote at the Annual Meeting. Shareholders who sell their Shares before the Record Date (or acquire them without voting rights after the Record Date) may not vote such Shares. Shareholders of record on the Record Date will retain their voting rights in connection with the Annual Meeting even if they sell such Shares after the Record Date. Based on publicly available information, Starboard believes that the only outstanding class of securities of the Company entitled to vote at the Annual Meeting is the Shares.

Shares represented by properly executed **BLUE** proxy cards will be voted at the Annual Meeting as marked and, in the absence of specific instructions, will be voted **FOR** the election of the Nominees, **[AGAINST]** the approval of the Say-on-Pay Proposal, and **FOR** the ratification of EY Israel as the Company's independent registered public accounting firm and in the discretion of the persons named as proxies on all other matters as may properly come before the Annual Meeting, as described herein.

[According to the Company's proxy statement for the Annual Meeting, the Board intends to nominate eleven (11) candidates for election at the Annual Meeting.] This Proxy Statement is soliciting proxies to elect only our Nominees. Accordingly, the enclosed **BLUE** proxy card may only be voted for our Nominees and does not confer voting power with respect to the Company's nominees. Shareholders should refer to the Company's proxy statement for the names, backgrounds, qualifications and other information concerning the Company's nominees. In the event that some of the Nominees are elected, there can be no assurance that the Company nominee(s) who get the most votes and are elected to the Board will choose to serve as on the Board with the Nominees who are elected.

Since the Company has recently increased its membership and will be seeking the election of eleven (11) directors at the Annual Meeting, we reserve the right to vote the Starboard Group Shares for two (2) of the Company's directors who we believe are the most qualified to serve as directors. Also, while it is our current intention to vote all of the Starboard Group Shares in favor of the election of the Nominees, we reserve the right to vote some or all of the Starboard Group Shares for some or all of the Company's director nominees, up to and including the date of the Annual Meeting, as we see fit, in order to seek to achieve a Board composition that we believe is in the best interest of all shareholders. Shareholders may not know which of the Company's director nominees that Starboard votes some or all of the Starboard Group Shares for, if Starboard does in fact vote for some or all of the Company's director nominees. We would only intend to vote some or all of the Starboard Group Shares for some or all the Company's director nominees in the event it were to become apparent to us, based on the projected voting results at such time, that by voting the Starboard Group Shares we could help elect the Company nominees who we believe are the most qualified to serve as directors and thus help achieve a Board composition that we believe is in the best interest of all shareholders. If we decide to vote some or all of the Starboard Group Shares for some or all of the Company's director nominees prior to the date of the Annual Meeting, we will file a statement on Schedule 14A on the same day such determination is made in order to notify shareholders accordingly. Shareholders should understand, however, that all Shares represented by the enclosed **BLUE** proxy card will be voted at the Annual Meeting as marked and, in the absence of specific instructions, will be voted in accordance with Starboard's recommendations specified herein and in accordance with the discretion of the persons named on the **BLUE** proxy card with respect to any other matters that may be voted upon at the Annual Meeting.

## QUORUM; BROKER NON-VOTES; DISCRETIONARY VOTING

A quorum is the minimum number of Shares that must be represented at a duly called meeting in person or by proxy in order to legally conduct business at the meeting. For the Annual Meeting, the presence, in person or represented by proxy or by voting instruction card, of at least two shareholders holding at least 33 ⅓% of the Shares outstanding as of the Record Date, will be considered a quorum allowing votes to be taken and counted for the matters before the shareholders.

Abstentions are counted as present and entitled to vote for purposes of determining a quorum. Shares represented by “broker non-votes” also are counted as present and entitled to vote for purposes of determining a quorum. However, if you hold your shares in street name and do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote (a “broker non-vote”). Under applicable NASDAQ rules, your broker will not have discretionary authority to vote your shares at the Annual Meeting on any non-routine matter such as for the election of directors and the advisory vote to approve the compensation of named executive officers.

If you are a shareholder of record, you must deliver your vote by mail or attend the Annual Meeting in person and vote in order to be counted in the determination of a quorum.

If you are a beneficial owner, your broker will vote your shares pursuant to your instructions, and those shares will count in the determination of a quorum. Brokers do not have discretionary authority to vote on any of the non-routine proposals at the Annual Meeting. Accordingly, unless you vote via proxy card or provide instructions to your broker, your Shares will count for purposes of attaining a quorum, but will not be voted on any non-routine proposals.

## VOTES REQUIRED FOR APPROVAL

*Election of Directors* — The election of each of our [nine (9)] nominees requires the vote of the holders of a majority of the voting power represented at the meeting in person or by proxy or written ballot and voting thereon. With respect to the election of directors, only votes cast “FOR” or “AGAINST” a nominee will be counted. Proxy cards specifying that votes should be withheld with respect to one or more nominees will result in those nominees receiving fewer votes but will not count as a vote against the nominees. Neither an abstention nor a broker non-vote will count as a vote cast “FOR” or “AGAINST” a director nominee. Therefore, **abstentions and broker non-votes will have no direct effect on the outcome of the election of directors**. Shareholders are not entitled to cumulate their votes in the election of directors or with respect to any other matter submitted to a vote of the shareholders at the Annual Meeting.

*Other Proposals* — Shareholders may vote “FOR” or “AGAINST” or may “ABSTAIN” from voting on each of the other proposals. The approval, on an advisory basis, of the compensation of the Company’s named executive officers requires the approval of the holders of a majority of the voting power represented at the meeting in person or by proxy or written ballot and voting thereon. The appointment of EY Israel and authorization of the audit committee determination of their fiscal 2018 remuneration requires the approval of the holders of a majority of the voting power represented at the meeting in person or by proxy or written ballot and voting thereon. Neither an abstention nor a broker non-vote will count as voting with respect to the Say-on-Pay Proposal or the ratification of the selection of EY Israel as the Company’s independent registered accounting firm for fiscal year 2018. Therefore, abstentions and broker non-votes will have no direct effect on the outcome of these proposals. If you sign and submit your **BLUE** proxy card without specifying how you would like your shares voted, your shares will be voted in accordance with Starboard’s recommendations specified herein and in accordance with the discretion of the persons named on the **BLUE** proxy card with respect to any other matters that may be voted upon at the Annual Meeting consistent with Rule 14a-4(c)(3) promulgated under the Exchange Act.

## REVOCAION OF PROXIES

Shareholders of the Company may revoke their proxies at any time prior to exercise either by granting a new proxy bearing a later date, attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute revocation of a proxy) or by delivering a written notice of revocation. The delivery of a subsequently dated proxy which is properly completed will constitute an automatic revocation of any earlier proxy. The revocation may be delivered either to Starboard in care of Okapi Partners at the address set forth on the back cover of this Proxy Statement or to the Company at c/o Mellanox Technologies, Inc., 350 Oakmead Parkway, Suite 100, Sunnyvale, California 94085 or any other address provided by the Company. Although a revocation is effective if delivered to the Company, we request that either the original or photostatic copies of all revocations be mailed to Starboard in care of Okapi Partners at the address set forth on the back cover of this Proxy Statement so that we will be aware of all revocations and can more accurately determine if and when proxies have been received from the holders of record on the Record Date of at least two shareholders holding at least 33 1/3% of the shares of the outstanding Shares. Additionally, Okapi Partners may use this information to contact shareholders who have revoked their proxies in order to solicit later dated proxies for the election of the Nominees.

**IF YOU WISH TO VOTE FOR THE ELECTION OF THE NOMINEES TO THE BOARD, PLEASE SIGN, DATE AND RETURN PROMPTLY THE ENCLOSED [BLUE] PROXY CARD IN THE POSTAGE-PAID ENVELOPE PROVIDED.**

Starboard V&O Fund previously purchased European-style call options in the over-the-counter market referencing an aggregate of 460,000 Shares, which had a strike price of \$25.00 per Share and expired on February 28, 2018. The call options were not exercisable until the expiration date, and accordingly, neither Starboard V&O Fund nor its affiliates had voting or dispositive control over the Shares underlying the call options until and unless exercised on such date. On February 28, 2018, Starboard V&O Fund exercised the call options and thereby acquired 460,000 Shares in the aggregate. Accordingly, Starboard V&O Fund no longer has any exposure to such call options.

Starboard V&O Fund was also previously a party to certain forward purchase contracts with UBS as the counterparty which provided for the purchase of an aggregate of 1,640,000 Shares. The forward purchase contracts provided for physical settlement and had a final valuation date of April 26, 2019, however, Starboard V&O Fund had the ability to elect early settlement after serving notice to UBS of such intention at least two (2) scheduled trading days in advance of the desired early final valuation date. Until the settlement date, none of the forward purchase contracts gave Starboard V&O Fund or any of its affiliates voting or dispositive control over the Shares to which such contracts related. On December 28, 2017, Starboard V&O Fund exercised the forward purchase contracts and thereby acquired 1,640,000 Shares in the aggregate. Accordingly, Starboard V&O Fund is no longer a party to any forward purchase contracts.
